Shrish Kiran Kadam

kadam.shrishk@gmail.com | LinkedIn | GitHub | (+91) 8624993284

Education

International Institute of Information Technology, Hyderabad — Hyderabad, Telangana

B.Tech in Computer Science, M.S. in Computational Linguistics — Jul 2024 – Present

- CGPA: 8.07 | Dean's List 2 – Spring 2025
- Relevant Coursework: Data Structures, Algorithms, Operating Systems, Networks, NLP, Machine Learning

Class XII: 96.6% — 2024
Class X: 96.4% — 2022

Research Experience

Undergraduate Researcher, MT-NLP Lab, IIIT Hyderabad — Hyderabad, Telangana

Advisor: Dr. Manish Shrivastava — Apr 2026 – Present

- Investigating LLM reasoning, in-context learning, and internal representations.
- Exploring techniques for efficient LLM inference and empirical model evaluation.

Experience

Research Intern, KPIT Apex Lab — Pune, Maharashtra

Embedded Systems & Computer Vision — May 2026 – July 2026

- Developed a thermal vision system for real-time spatial tracking and temperature monitoring.
- Implemented perspective correction and embedded computer vision pipelines.

VitalSync – Polar ECG/HR Monitor & Experiment Orchestrator — Hyderabad, Telangana

Project Mentor: Satish Kathirisetti, Product Labs — Jan 2026 – Apr 2026

- Built an experiment platform integrating Polar ECG/HR sensors and BLE data streams.
- Implemented synchronized data collection, visualization, and fault recovery.

Projects

Agentic AI Security Firewall: LLM & Tool-Use Security — *Private Project*

- Developed a security layer for LLM agents and tool-using systems, enforcing authorization and policy controls.
- Implemented prompt-injection detection, request filtering, and safeguards against unsafe tool calls.

Type-Aware Failure Prediction in Vision-Language Models — Github Repository

- Studying hidden representations to distinguish perceptual errors from hallucinations in vision-language models.
- Evaluating failure prediction and targeted interventions for chart and diagram reasoning.

Network File System (NFS) — GitHub Repository

- Built a distributed file system in C with a centralized Name Server and multiple Storage Servers.
- Implemented TCP-based file operations, access permissions, and versioning with checkpoints.

Technical Skills

Languages: Python, C++, C, SQL, Assembly
AI/ML: PyTorch, Hugging Face Transformers, TensorFlow, Scikit-learn
Systems & Tools: Linux, Git, Docker, CUDA, SLURM/HPC, OpenCV
Research Areas: LLMs, Reasoning, In-Context Learning, Agentic AI, NLP

Positions of Responsibility

Teaching Assistant, Digital Systems & Microcontroller, IIIT Hyderabad — Aug 2026 – Present

- Supported laboratory sessions, technical debugging, and course evaluation.

Project Manager, Astronautics Club, IIITH — Aug 2024 – Jan 2026

- Led student project teams, coordinated technical execution, and managed project timelines.
